About Me

Inspired by a painting done by my uncle when he was in school I started painting when I was in seventh grade. Since then Art has been part of my life in one form or the other.

My passion for creativity has led me to learn animation and later on explore one of the oldest art forms in India. "Kerala Mural Painting".

I am a Techie by Profession. But I always try to learn new things related to Music, Art, and Dance whenever I get an opportunity to do so.

Thus my journey as a Techie and Artist goes in parallel.
